

## ABOUT THE INSTITUTE

Kakatiya University situated in a sprawling area of about 650 acres, now has 24 departments in four colleges on the campus with a network of eleven constituent colleges, and 471 affiliated colleges. KU College of Engineering & Technology is established in the year 2009 with four programmes viz., B.Tech (CSE ECE, EEE, Mech), later in 2012, B.Tech (IT and Civil) and two M.tech (D.C and C.S.E) Programmes were introduced. It is one of the fast-growing technical institutions for developing excellence in technical education.

### Programme Theme

**“Education is not the filling of a pot but the lighting of a fire.”**  
— W.B. Yeats.

### Objective

FDP aims in enriching the teachers to become competent by enhancing their performance in the classrooms and become professionally expertise.

## ABOUT THE FDP

In the era of globalization soft skills and communication skills play a vital role. Just like how blood circulation is important to our human body, like wise communication skills are also very important for the success of any organization or institution. The objectives of any organization can be attained only through proper verbal and non-verbal communication. So, it is considered to be the dire need of the hour to focus on soft skills and communication. In the present COVID-19 pandemic situation it is essential to formulate suitable programs to meet the challenges of digital initiatives, which was emphasized in the recent New Education Policy (NEP) of Government of India. At the professional front also, it is communication and its related skills that decide a person's career curve. It is so because in the professional work, what professionally do most of the time is communicate.
